

## Introduction

In my research for this day, I will discuss ((the old and modern Emirates))

Man lived in ancient times and periods of ignorance

This is because people do not know what is going on in the other world

Or on the other side of the world itself, but there was some Of the children go and study at Mutawa.

They used to try to save a living for their family through

Fishing or diving in search of pearls, grazing and agriculture.

Display

Recently there is no such thing as ignorance, but all people

They persevere to science and success and there are graduates from universities

Sophisticated.

There have also been many jobs such as:

Agriculture and trade

Education, industry, grazing and oil extraction.

The means of transportation differed from those of modern times

For something he does:

Transport large amounts of wheat, for example, or anything else

The use of wood for shipbuilding was started

Is the only way to transport.

The means of communication differed from recent times, they have evolved

The means of communication greatly after the development of Arab societies

Foreign people, so people are using mobile phones and Wireless, email, and many more Advanced and advanced scientific means.

The mosques differed recently from ancient times, because it was the mosque

Al-Mutawa ((the imam of the mosque)) teaches the children of the neighborhood and teaches them the Arabic language and Tajweed and the provisions of religion and the preservation of the Koran.

The markets differed from recent times. There were different forms of markets: the UAE market, the old market, large shopping malls and huge shops.

---

Education has differed from ancient times. Modern education has recently evolved. We are now studying in schools and learning many things, including: (Arabic language - religious education - socialism - mathematics)).

The houses were originally made of arish and some of them are simple tents. Now, the houses are made of stone and cement and it is developed into villas and high buildings

### Conclusion

How beautiful to preserve our civilization and differentiate between old and new

And that we strive in the study and learning in order to give our state a beautiful future fragrant with all love and appreciation.
